Backtest report —

Educational material. Simulated results on historical data. Not investment advice. Past performance does not guarantee future results.

Field	Value
Report date	YYYY-MM-DD
Author	
Strategy version	V_._ (file.yaml, hash …)
Changes from the previous version	… (link to the decision log)
Software	version · revision

1. Hypothesis

What the rule claims, in one sentence. Which market, which hours, which direction. What you should see if it is true and what you should see if it is false.

2. Data

Field	Value
Provider and type	(e.g. ticks aggregated to M1)
Symbol(s)	
Range (UTC)	
Rules timezone	(e.g. Europe/Madrid, tzdata …)
Dataset SHA-256	
Rows · gaps · duplicates · invalid	
Spread column available	yes / no

3. Execution and costs

Field	Value
Fill model	(decision at close, execution at the next price)
Spread	source and value
Slippage	pips, also on the stop?
Commission	
Risk per trade	fraction of equity
Session expiry	yes / no, time

4. Result

Metric	Value
Trades (N)	
Expectancy (R)	
Win rate	
Average win / average loss (R)	
Profit factor	
Max drawdown (R)	
Total R	
Total R without the best trade	

Exit reasons: stop … · target … · session expiry …

Equity curve (in R, X axis = trades): insert figure.

5. Protocol

5.1 Monte Carlo

Percentile	Final R	Max drawdown
P5		
P25		
P50		
P75		
P95		

Probability of ending negative: … %. Simulations: … · seed: …

5.2 Random benchmark

Rule expectancy … R · random expectancy P50 … R · P95 … R · rule percentile … % · empirical p-value …

5.3 Sensitivity

Parameter	Value	N	Total R	Expectancy

Parameters that flip the sign: …

5.4 Splits and walk-forward

Segment	Days	N	Total R	Expectancy
train				
validation				
out of sample				

Walk-forward: windows … · with trades … · positive … · out-of-sample total … R

6. Limitations

• Simulated fills on historical data; no live execution.

• …

7. Decision

One of: discard / keep researching (with which new data) / new version (with which exact change, and why).

Decision-log entry: YYYY-MM-DD — …

8. Checklist

Paste the kit checklist here (03-checklist) with every question answered.
